Child Development Center

Achievement Centers for Children

Preschool Program

Before the age of 5, children do some of their most important learning. As specialists in early childhood education, the Achievement Centers' Child Development Center offers an inclusive child development program for children with and without special needs, ages 3 to 5 years, that encourages curiosity, creativity, and potential for growth.

Families may also benefit from the Achievement Centers' comprehensive services by coordinating childcare with therapy and family support services. The Child Development Center is licensed by the Ohio Department of Jobs and Family Services.

The Right Choice

As a parent, it's important to feel confident about your child's early education and care provider. At the Achievement Centers for Children, our goal is to offer a comfortable, secure and nurturing environment to children and peace of mind to their families.

Your child will learn through play, develop social skills and engage in age-appropriate readiness activities while in the care of our professional teachers and staff.

Partnering with Families

We believe that working in partnership with families provides the best care and educational experiences for children. Families are encouraged to visit their child's class at any time to share in activities.
