2012 Training Schedule

(held at: The Robert J Keegan Family Center)

- **Behavioral Data Collection & Interpretation - February 17th**
- **Including Students with ASD in the General Education Setting - February 28th**
- **Constructing & Differentiating Work Task Activities for Students with ASD - March 20th**

Behavioral Data Collection & Interpretation

This newly developed training is designed to show participants how easily and effectively data can be used in the context of developing Functional Behavioral Assessments and Behavior Intervention Plans. Participants will leave this one-day training understanding specific methods of collecting, interpreting and utilizing this vital information to design positive and proactive interventions for students exhibiting behavioral challenges.

February 17, 2012 - (8:30am-4:00pm)

Cost \$150

Constructing & Differentiating Work Task Activities for Students with ASD

Participants will leave this one day hands-on workshop with expanded knowledge on how to differentiate activities for multiple students. They will make and take away materials and work task to implement in the classroom that will enhance skills while teaching students to work independently.

March 20, 2012 (9:00am-3:30pm)

Cost \$150

Including Students With ASD in the General Education Setting

This one-day training is designed for general education teachers who are working with students with ASD. An overview of autism and the challenges and unique learning styles presented in individuals with ASD will be covered. Practical strategies will be presented that successfully address the needs of the student with Autism, as well as other students with diverse learning styles.

February 28, 2012 (8:30am-3:30pm)

Cost: \$150

What past participants have said...

"As a result of today's session, I will be able to help my upcoming students with ASD to become a more successful member of society & help all of my students to be aware of how to treat each other. It was PERFECT! Thank you so much!"

Teacher - Including Students with Autism in the Gen. Ed. Setting- August, 2011

"I'm glad to finally have good clear information that I can keep and go back to if needed."

Teacher - Including Students with Autism in the Gen. Ed. Setting- July, 2011

"The group activities and videos were great, I'm a hands-on person so the application and visuals helped me to better understand the what and why in the data collection process." Attendee- Behavioral Data Collection & Interpretation – Nov., 2011

The Achievement Centers for Children is a 72 year-old nonprofit agency that families call a source of hope, a place of achievement and a center of support and expertise for children with special needs.

Our unique, comprehensive service model weaves together custom-designed therapy, education, recreation and family support services to meet the needs of the entire family

At the Achievement Centers for Children, we believe that most children with autism would be able to receive quality education and treatment while remaining in their home school districts if added supports, knowledge and tools were made available.

Achieve Consulting addresses this need by offering services, trainings and workshops to assist school districts in providing appropriate and ultimately, exemplary education for students with autism.

The Autism Family Foundation is a non-profit charitable organization that will assist families dealing with the Autism Spectrum Disorders . Our advocacy and resources will help to enhance the lives of these children and their families as they develop from birth to adulthood.

Our goals include:

- Collaboration with other organizations and agencies dealing with Autism Spectrum Disorders
- Coordination of collaborative efforts
- Providing a resource center for families
